

Quality Improvement Plan (QIP)

Narrative for Health Care Organizations in Ontario

March 20, 2025

OVERVIEW

Reachview Village LTC is a 65 bed long-term care home located in Uxbridge, ON.

Improving the quality of care we provide to our residents and their families guides all we do. We are committed to continuous improvement, and on an ongoing basis, we seek new ways to evolve our practices and strengthen our services.

Purpose

To enhance the quality of life for our residents in our care.

Our Mission

To provide people with the care they need, wherever they call home.

Our Vision

Everyone in Canada has access to the care and support they need to live their best lives.

Our Values

We embrace every person for the individual they are.

We care for each person as we would our own family.

We collaborate with others because we achieve more together.

We are relentless in our efforts to improve.

We respect the resources entrusted to us.

Quality Improvement

Our Quality Framework outlines the ways in which our home is supported to achieve success with a focus on quality of life, safety, regulatory compliance, and resident engagement. In alignment with provincial requirements, our home is responsible for directing our quality improvement plan, with the support of a dedicated regional team who assist us with our home's quality initiatives as needed.

Our strategic direction and the initiatives that support the plan also meet or exceed standards set by Accreditation Canada and meet the requirements of our LSAA.

Our home's multidisciplinary Continuous Quality Improvement (CQI) Committee oversees our quality program. It is led by our home's CQI lead. Membership includes our home leadership team, each designated program lead, Medical Director, Dietitian, Pharmacy Consultant, resident council representatives, and care team representatives, including a Personal Support Worker and Registered clinical staff. Our CQI committee meets at a minimum quarterly and uses our CQI Framework to identify key areas for quality improvement in our home, make recommendations, monitor and measure progress, identify and implement adjustments, and communicate improvement outcomes for the current and following year. Results are discussed and shared with residents, families, team members and external partners to support our priorities, targets, and activities.

We measure and monitor our quality initiatives using data accuracy and quality indicator results. Our home's quality reports are circulated monthly and reviewed, to help monitor progress and drive meaningful conversation at our continuous quality committee meetings. Performance monitoring is a key part of our relentless efforts to improve performance and include but are not limited to the following:

- Monitoring key quality indicators
- Internal audits
- External audits
- Annual program evaluations
- Resident and Family Experience Survey results

In 2024, our home's Quality Improvement priority areas included: Re-educate staff on restraint policy, results 0% use of restraints for 2024.

Reduce the use of antipsychotics by educating families/residents and a med review for all residents on antipsychotic medications, results 6.3% usage (10.7% below max target)

The following top areas for improvement identified from our 2023 Resident and Family experience survey results were also included: Spiritual Care, Dietitian services, Food and Beverages.

We are proud of the following achievements and improvements that were implemented based on the 2023 survey results and that were part of our 2024 improvement plan: Spiritual Care – Satisfaction with quality of spiritual care 2023 26.3% satisfaction, by adding measures such as inviting spiritual leaders to resident council meetings, refreshed posters for spiritual services and calendars, adding resident input into these items as a standing council agenda item the 2024 results increased to 85.7% satisfaction.

Dietitian support satisfaction was at 33.3% in 2023, by adding the following items: Dietitian to complete written input for resident care conferences, attend family forum meetings and be available for individual appointments for residents if requested the satisfaction increased to 76.9% in 2024.

Our CQI committee has determined that for 2025 our priority areas for quality improvement will include: Reducing # of falls, reducing # of worsened ulcers, antipsychotic reduction, as well as the following

areas from our Resident Experience survey as determined following consultation with our Resident council and Family forum; Resident dining experience, Resident input into recreation programs, maintenance of the physical building and outdoor spaces.

ACCESS AND FLOW

We are committed to working closely with our community partners including our regional Ontario Health at Home team, hospitals and business partners to ensure safe, effective and high-quality care of our residents. We do this through ongoing relationship building and partnerships with health system partners such as local long-term care homes, regional IPAC hubs, Ontario Health teams and various regulatory authorities.

In addition, our partnerships extend to our Medical Advisor and Attending Physicians as we work to improve medication management, clinical care and reduce unnecessary ED visits.

We work together with residents, their families and our health system partners to ensure safe, effective admissions to our home, and understand transitions throughout the system are not easy for those we serve. We work to apply additional care and attention to closely engage and support those in our care at times of change or at times where specialized supports are required in their health care journey.

Throughout the year, we support and participate in awareness campaigns to educate team members, residents and families. Our home has access to an annual awareness calendar that highlights key health promotion and professional recognition events, which are supported through communication and education, with activities that are tailored to our home's needs and demographics. Some of the campaigns include:

- Safe Spaces: Combining four key autumn safety awareness events

– Infection Control Week, Canadian Patient Safety Week, Seniors' Safety Week, and Fall Prevention Month – Safe Spaces is a six-week sustained safety campaign. Aimed at promoting a culture of safety in our home through education, resources and home-level activities, the campaign equips our team members with knowledge and tools to continuously improve quality and safety and engages residents and families as partners in care.

- Stick it to the flu: Through our annual influenza vaccination campaign, we aim for 90% vaccination of residents and staff. Our home also hosts on-site vaccination clinics.
 - Hand Hygiene Day: Led by an IPAC support team, this annual day is marked with an intensive focus on tools and education to promote proper hand hygiene practices for our team members, residents and families. We participate in a friendly challenge to find the most creative and engaging ways to promote hand hygiene – from writing jingles to hosting events.
 - Alzheimer's awareness: We care for a population that is impacted by rising rates of Alzheimer's and dementia. In addition to intensive communication focus during Alzheimer's Awareness Month every January, our home has access to tools and education year-round that help our team members to tailor care to the unique needs of those living with dementia – from Gentle Persuasive Approaches (GPA) training to dementia-focused tools for skin and wound care. Right care in the right place at the right time
- On an ongoing basis, we work hard to support, train, retain and recruit qualified and compassionate team members to work together in the service of quality care for residents. We know strong interdisciplinary teams are essential to the delivery of quality care and we foster a culture of collaboration to contribute coordinated expertise, as resident plans of care are executed. In addition, we are actively recruiting Nurse Practitioners to support

our collaborative models of care, continue to invest in building credentials among our team for advanced wound nurses (SWAN's), provide training and resources for our team to enhance skillsets in IV therapy with multi-venous IV training arms, compassionate end-of-life care and more.

EQUITY AND INDIGENOUS HEALTH

We are committed to improving equitable access, experience and outcomes to reduce health inequities and advance indigenous health in our home.

At Reachview Village we embrace every resident for the individual they are, and care for them as we would our own family. Our Equity and Indigenous Health program reflects our core values by recognizing and honouring the diverse identities, cultures, and experiences of each resident. By integrating culturally appropriate care and Indigenous traditions, we affirm the importance of personal heritage in shaping well-being. Through culturally diverse programming, menu selection, staff education and meaningful community partnerships, we create a safe and inclusive environment where residents feel valued, respected and empowered to be their authentic selves. This commitment is essential to providing compassionate and equitable care. Our Equity and Indigenous Health program is informed by our Resident Council and Family Forum, and by the data we gather from our annual Resident and Family Experience Survey. Personalized support ensures residents feel seen, respected and connected to their heritage.

Implementing mandatory training on cultural safety, anti-racism, and the history of Indigenous Peoples in Canada for all staff, fosters awareness and equips caregivers with the skills to address systemic barriers and biases. Identifying and addressing systemic gaps in

care, including access to interpreters, culturally appropriate meals and resources, and the provision of trauma-informed care, are skills taught in staff training. Regularly assessing program outcomes through resident feedback, and staff input, helps us ensure continuous improvement

In 2025 we commit to continued support and recognition for diversity and inclusion for staff, residents and families in our home. At Reachview we celebrate our differences in many ways such as recognizing and celebrating Black History Month, Chinese New Year, Hanukkah, Christmas and many other diverse occasions.

PATIENT/CLIENT/RESIDENT EXPERIENCE

Active engagement of residents and families is essential to our values. Annually, through an anonymous survey, we seek feedback from residents and their families about what is going well and what we can do to improve. The annual survey provides our home with a summary of the scores and comments for each of the areas of care and services offered. We use this report to collaborate with the residents council and family forum to determine an action plan to improve the experiences of those we serve. On a regular basis during the year, we discuss progress updates and strategies for improvement via town halls, resident council and family forum meetings and newsletters.

Our ongoing goal is to incorporate feedback to continually improve the quality of care we provide by ensuring the care each resident receives is reflective of their individual needs and wishes.

Our 2024 Resident and Family Experience Survey Results:
Date of 2024 Annual Resident and Family Experience Survey:
September 3 – October 11, 2024

Resident: Would you recommend this home? 66.7 %

Family: Would you recommend this home? 85 %

Survey results were reviewed by CQI committee: Dec 2nd, 2024

Survey results were shared and discussed with Resident Council: Jan 7, 2025 & Feb 4 2025.

Survey results were shared and discussed with Family Forum: Dec 17th, 2024

During discussions with the Residents council and Family forum when sharing our 2024 results, three areas were determined to be most important priorities for us to focus on and these are included in our 2025 QIP.

Top three areas Resident/ Family Experience survey priorities for improvement in 2025:

1. Dining Experience- enjoy eating in the dining room 50.0%

- a. Dining room refresh – new paint for walls and ceilings, brighter lighting.
- b. Reinstate tablecloths for dinner service
- c. Reminders and re-education to all staff re voice level when working/serving in the dining room and being mindful of speaking across the room while residents are dining.
- d. Install new speakers so music can play quietly in the background to create a more friendly dining ambience.

2. Recreation- input into programs available :55.6 %

- a. Use real time feedback tools such as evaluation of programs, seeking resident feedback on enjoyment and satisfaction of program in real time.
- b. Standing item in resident council meetings to seek input on

programs/activities.

3. Maintenance of the physical building and outdoor spaces:52.9 %

- a. New lighting to be installed in the hallways throughout the building.
- b. All hallways, resident room doors throughout the building to be refreshed with new brighter paint colours.
- c. Outdoor courtyard areas to be tidied and made more visually appealing.

PROVIDER EXPERIENCE

Reachview Village has many opportunities to engage with staff and leadership in sharing quality improvement goals and commitments. This is achieved through employee engagement surveys, sharing of best practices with other long term care homes, regional quality labs and participation in the Ontario Long Term Care Association Quality Committee and annual quality forums.

Our annual employee engagement survey provides an opportunity for team members to give their feedback on various issues such as staff satisfaction, innovation, and work environment. Based on previous employee engagement results we worked this year to improve increased communication.

We committed to separate regular monthly meetings for PSWs and Nursing staff that cross over 2 of our 3 shifts as well as regular town hall mtgs for all staff primarily used when we are introducing a change or need to share information/address items with our whole team.

SAFETY

At Reachview Village, we take a system approach to preventing and reducing resident safety incidents. At the core of this approach is system learning and process improvement.

Incidents and risks are escalated rapidly, so that they can be addressed and mitigated, with access to specialized support team members if needed.

Safety data is analyzed continually in our home, to identify improvement opportunities. Standardized process, policy, practice and technology improvements are developed in response, and shared through education with our care team. We can attend weekly education and question and answer (Q&A) webinars that are held on safety and clinical practice topics derived from this analysis and are attended by leaders and clinicians from other long term care homes in our network throughout the year.

From front-line to senior leadership, safety incident reporting, awareness and response, is embedded in our roles and daily work. All these program elements, and more, comprise our safety culture program.

PALLIATIVE CARE

Residents and families in long-term care deserve compassionate, high-quality care. Our teams collaborate with residents and families to tailor plans of care that are based on each residents' individual needs.

We have access to enhanced palliative care training for interdisciplinary teams, in partnership with Pallium Canada, enabling high-quality clinical, spiritual and emotional palliative care supports for residents and their families.

We are currently updating our Palliative Program policies and procedures to further emphasize the importance of a palliative care philosophy. The revised policies and procedures will be implemented in 2025 with associated staff education and training. The focus will be on earlier awareness and identification of those who require a palliative approach to care through implementation of a standardized Palliative assessment which is designed to guide staff in addressing the holistic needs and symptom management of each resident.

POPULATION HEALTH MANAGEMENT

Reachview Village considers the unique demographics in our home when planning care delivery requirements, programs, resources and external partnerships. In our home our population needs consist of residents that have dementia, physical abilities challenges and behavioural concerns. To meet the individualized needs of our residents, we have implemented programs such as Dementiability program led by the BSO lead, pain and palliative education program, physiotherapy services, dental services, music therapy, dietician services, foot care services and salon services. We also collaborate with Ontario shores as a resource for behavioural support services, Alheimers Society for educational inservices for staff and families.
